

S P SAI KRISHNA REDDY

Frontend Developer / React.js Developer / UI Engineer

 spskrishna1999@gmail.com  +91 7097917628  Hyderabad

Summary

Frontend Developer with 2+ years of hands-on experience in building scalable, responsive, and user-friendly web applications using React.js, JavaScript (ES6+), HTML5, and CSS3. Strong experience in converting Figma designs into pixel-perfect UI, developing reusable components, and integrating REST APIs with backend systems. Worked extensively on AMS, WMS, and B2B platforms, handling UI development end-to-end. Passionate about clean UI, performance optimization, and real-world product development.

Experience

●	Alif Infotech	May 2025 - Present
	Role – Front-End UI Developer	
	- Developed and maintained responsive React-based UI for enterprise web applications. - Delivered end-to-end UI for AMS (Asset Management System) and WMS (Warehouse Management System). - Built 20+ reusable UI components including forms, tables, filters, modals, and layouts. - Converted Figma designs into pixel-perfect, responsive screens. - Integrated frontend with C#.NET backend APIs using Axios. - Designed data-heavy tables with pagination, search, and filters. - Ensured cross-browser compatibility across Chrome, Edge, and Firefox. - Improved UI consistency using proper spacing, typography, and reusable styles. - Participated in sprint planning, daily stand-ups, and requirement discussions. - Optimized UI performance for faster load times and smooth navigation.	
●	Royal It Park Services	October 2024 - December 2024
	Role – Web Designer / Frontend Developer	
	- Developed responsive websites using HTML, CSS, Bootstrap, and JavaScript. - Implemented mobile-first layouts and ensured cross-browser support. - Worked closely with backend developers to align UI with system workflows. - Improved website performance, usability, and accessibility. - Converted design ideas into functional and user-friendly web pages.	
●	VS Technosolutions	March 2023 - September 2024
	Role – Web Designer	
	- Designed and developed a fully responsive eCommerce website. - Implemented product listing, cart, and checkout UI flows. - Optimized website for SEO, performance, and accessibility. - Improved UI/UX for better engagement and conversion rates. - Conducted usability testing and refined UI based on feedback.	

TECHINICAL SKILLS

Frontend Development	• HTML5, CSS3, JavaScript (ES6+), React.js, JSX, React Hooks (useState, useEffect, useMemo) • Redux Toolkit (Basics – slices, async actions) • React Router • Axios / Fetch API • Responsive Web Design (Mobile / Tablet / Desktop)
UI & Functionality	• Reusable Component Architecture • Forms, Tables, Modals, Dashboards • Pagination, Search & Filters • Conditional Rendering & Role-Based UI • API Error Handling & Loading States
Styling & Frameworks	• Bootstrap • Tailwind CSS (Basics)
Tools & Workflow	• Git & GitHub (branching, commits) • Postman (API testing) • VS Code, Chrome DevTools • npm / yarn • Agile & Sprint-based development
Styling & Frameworks	• Bootstrap • Tailwind CSS (Basics)
Design Tools	• Figma • Canva • Photoshop

Education

●	B-Tech In Civil Engineering SCSVMV University Kanchipuram, Tamil Nadu • Graduated with a 9.0 GPA • June 2018 - April 2022
●	MPC Bhashyam Junior College Tirupathi, Andhra Pradesh • Obtained a GPA of 8.9 • March 2016 - March 2018

Skills

- Strong Communication & Team Collaboration
- Problem-Solving & Analytical Thinking
- Ability to Learn New Technologies Quickly
- Time Management & Task Prioritization
- Attention to Detail in UI Design
- User-Centric & UX-Oriented Mindset
- Adaptability in Fast-Paced Environments
- Ownership Mentality & Responsibility
- Effective Coordination with Backend Teams
- Continuous Improvement & Self-Learning Attitude

Projects

1. Ongoing Project – MAHAL (B2B Platform)

Role: UI Developer (React.js)

Tech Stack: React.js, REST APIs, Bootstrap

Responsibilities:

- Taking full ownership of UI development for a B2B web platform.
- Creating modern, scalable UI using reusable component structures.
- Integrating frontend with backend APIs.
- Ensuring responsive layouts and smooth navigation.
- Collaborating with team members to improve UX and user flow.

2. AMS – Asset Management System

Tech Stack: React.js, Redux Toolkit, REST APIs, Bootstrap, Git

Responsibilities:

Role: Front-End UI Developer

- Handled complete UI development independently for all AMS modules.
- Developed reusable components for dashboards, forms, and reports.
- Integrated APIs with backend team and ensured accurate data flow.
- Maintained consistent UI design system across all screens.
- Performed cross-browser testing and layout fixes.

3. WMS – Warehouse Management System

Role: Front-End UI Developer

Tech Stack: React.js, REST APIs, Bootstrap

Responsibilities:

- Built UI for inventory management, stock tracking, and warehouse operations.
- Designed large data tables with pagination, filters, and search.
- Optimized UI for performance and operational workflows.
- Worked closely with backend developers to match API responses.
